

THE AMERICAN CERAMIC SOCIETY
Energy Materials and Systems Division

Connect with your industry.

WHO IS THE ENERGY MATERIALS AND SYSTEMS DIVISION?

As one of 11 Divisions of the American Ceramic Society, we focus on stimulating the growth and activities of the Society in the arts and sciences pertaining to ceramic and glass materials for energy-related applications. We represent the Society in matters pertaining to the science and engineering of ceramic and glass materials and related technology, as they apply to the harvesting, conversion, storage, transport and utilization of energy.

WHAT'S IN IT FOR YOU

- Connecting with industry professionals
- Meetings, symposia, and related events to stay current
- Access to member resources and industry publications

- Leadership development opportunities
- Awards and recognition
- Access to peer-reviewed journals
 - › **Journal of The American Ceramic Society**
 - › **International Journal of Applied Ceramic Technology**
 - › **International Journal of Applied Glass Science**
 - › **International Journal of Ceramic Engineering & Science**

➤ ceramics.org/emsd

WHO IS ACERS? We are an international society serving the engineered ceramic and glass industry with more than 10,000 professional and student members in 70 countries.

Energy Materials and Systems Division

...HELPS YOU EXPAND YOUR NETWORK IN YOUR INDUSTRY

Flagship meeting

MATERIALS CHALLENGES IN ALTERNATIVE AND RENEWABLE ENERGY (MCARE)/ENERGY HARVESTING SOCIETY MEETING

- Network with scientists, engineers, students from around the world
- Present research findings in symposia and poster sessions

WATCH THE VIDEO

bit.ly/ACerSstories

GIVING BACK

- Student recognition and travel support
- Leadership and committee positions

PEER RECOGNITION

- Outstanding Student Researcher Award
- D.T. Rankin Award

BUT DON'T TAKE OUR WORD, LISTEN TO WHAT OUR MEMBERS ARE SAYING:

"Division involvement provided me an opportunity to interact with people whom I otherwise would not have met. These relationships have resulted in a couple collaborative research projects, and have provided me with better visibility in the field."

— Kevin F.
